

Renaming software screen capture

The file names in the box (right side) are the scanned PDF document names (no meaning). Once the PDF file is renamed, using the software above, the file name would be:

IN02_T10NR07E_38
Prime Meridian_Township_Range,Section_Grid number

Grid top left starts at zero (0)
Grid bottom right ends with (80)

The block "Local ID Name" would be for the County's corner naming convention
